1 Background

Formula D is North America's first official drifting competition series that started out in 2003 by Jim Liaw and Ryan Sage. Where the fastest time is not as relevant as the execution and style. The "F" of Formula D symbolizes them as the first drifting championship to have factory backed teams, first official and sanctioned competition on city streets, first to be aired on national cable, and first to be filmed and featured in HD and 3D.

2 Target Audiences

- Fans
- Car Enthusiasts
- Ages 16-32

3 Objectives

To let target audiences intake data in a entertaining, modern and visually appealing way. They can track the 32 drivers who qualified, the champion of each rounds, and the statistics of each driver.

4 Obstacles

The social norm would assume drifting is another form of racing, on contrary belief, drifting is less about completing the course in a shorter time and more about displaying astonishing style, execution, and consistency.

5 Key Benefit

Visually stunning to appeal target audiences.

6 Support Statements/ Reasons Why

The judging system will show that its not a race against time but the impressiveness each driver displays.

I am the driver of the Greddy/Scion Racing Hankook FR-S. Drifting was introduced to me as a young teenager even before having my license. My father has been my role model growing up. At the age of 15, I became a professional driver in the Formula Drift Series. In 2005, I finished the FD series in overall 3rd place championship ranking. I also have experience doing rally, autocross, time attack, and some road racing. In 2011, I won the Toyota Pro Celebrity Race in the Long Beach Grand Prix. Stunt driving is also in my resume. Check me out.

J-SPEC AUTO SPORTS

Website Proposal | Branding

This project was a collaboration with Michael Russell. I will only be presenting the portions I was involved in. J-Spec Auto Sports is a e-commerce website that sells import auto parts, engines to be specific. The website was not up to par with current standards and needed a re-design.
